

Building Department

The Warren Building Department is excited to announce that online permitting will be available starting October 1, 2024, via PermitLink, with the Zoning Department soon to follow.

Beginning October 1, 2024, the Town of Warren's website (<https://www.warrenct.gov>) will provide a live link to the PermitLink website where applicants can create their accounts or log in with existing accounts enabling them to apply online for building permits. For your convenience, there will be a public terminal in the Town Clerk's Office for applicants who need access. Please note that paper applications will no longer be accepted as of October 1, 2024.

Providing this new online permitting system will:

- Allow applicants to apply for permits from their office/home eliminating the need to drop off or mail each application.
- Allow applicants to view the status of their applications and inspections eliminating the need for phone calls to the Building Department.
- Allow applicants to pay their fees online via credit card (some fees may apply).
- Allow for documentation of communications regarding the application requirements.

While we are going to a more streamlined, up-to-date permitting process, please know that the Building Department will be available to assist in guiding applicants with their submissions.

Thanks for your patience while we all adjust to this change. Please know that we will continue to make the approval of your applications as seamless as possible.
